**ASSOCIATION FOR MANAGEMENT OF
AGRICULTURAL RESEARCH AND
AGRIPRENEURSHIP**

AMARA

(A Registered Society)

LOGO TO BE DEVELOPED

About the Society

- AMARA provide a platform for the experts and professionals of agricultural universities and other stakeholders to meet under a common platform periodically to advocate the learner-centric, innovative and futuristic practices for effective teaching systems to meet the challenges and needs of agricultural development and Agripreneurship.
- The members of the Association engage themselves, through their collective thinking and interact with all actors and stakeholders in agriculture and allied value chains,

Objectives

- To provide collective intellectual inputs for generation, access and use of agricultural knowledge and innovation.
- To advocate pragmatic interventions for bringing in transformative changes in national systems pertaining to management of agricultural research and entrepreneurship so as to facilitate innovation-driven, farmer-centric farming system.
- To facilitate interaction among the domain experts to exchange ideas, experiences and opinions on future agricultural scenarios in the light of changing environment and technological advancements and their implications for orienting agricultural research, education and entrepreneurship development and management.
- To infuse forward-thinking in research, education and entrepreneurship development and encourage the farming community to actively participate in such endeavours to gain fruitfully in adopting the novel and proven interventions.
