

## Contemporary Education Technologies for Agricultural Education: Online Training Programme for ANGRAU Faculty Concludes at ICAR-NAARM

13<sup>th</sup> June, 2020

The ICAR-National Academy of Agricultural Research Management, Hyderabad completed Training Workshop on “Contemporary Education Technologies for Agricultural Education” using online mode during June 08-12, 2020 for the 20 faculty (from 6 campuses) of ANGRAU, Guntur, Andhra Pradesh. This was first of its initiative by the academy to cater to the capacity building demands through completely online mode in the area of online educational practices and protocols, duly considering the challenges faced due to Covid 19 scenario. Both the programme contents and delivery mode adopted for this online Workshop amply instilled confidence among the participants to gear up for digital and online learning.

In his inaugural address, Dr. Ch. Srinivasa Rao, Director, ICAR-NAARM highlighted the importance of online teaching methodologies in the new normal situation and urged the participants to implement the learnings of the immediately through elearning portal created exclusively for them. Dr N Trimurtulu, Dean, ANGRAU and Dr S K Soam, Joint Director, NAARM emphasised the importance of capacity building in online learning practices in present times.
