

## Online Training Programme on “E-Resources, E-Learning and IoT” for Faculty of UAS, Raichur concludes at NAARM.

The ICAR-National Academy of Agricultural Research Management, Hyderabad organised an online training programme for the faculty of the University of Agricultural Sciences, Raichur from 23-27 August 2021 with funding support from NAHEP. The programme broadly built the capacities of thirty faculty and scientists on themes like E-Resources, E-Learning and IoT apart from fortification with oral communication, teaching management and science communication. The valedictory programme was attended by Dr M G Patil, Director of Education and Dr D.M. Chandargi, Director of Extension & PI (NAHEP-IG) of University of Agricultural Sciences, Raichur and presided by Bharat S Sontakki, Head (ESM) of the Academy. In his address by Dr Patil, emphasised the need for utilization of learning in their future academic activities.

Dr Bharat Sontakki of NAARM highlighted the need for such a capacity building programme, which has more relevance in the COVID19 pandemic and develop faculty future-ready to adapt to the new normal situation. He is optimistic that this training programme will enhance the quality of education more so online education.

The programme was coordinated by Dr D Thammi Raju, Principal Scientist of the Academy.

Dr M G Patil, Director of Education and Chief Guest addressing the participants
