

Online MDP on “Intellectual Property Valuation and Technology Management” held at ICAR-NAARM

Date: 22-1-2022

ICAR-NAARM in association with a-Idea (Technology Business Incubator) conducted five days online Management Development Programme on “Intellectual Property Valuation and Technology Management” from January 18-22, 2022 with a participation of 20 scientists from ICAR and State Agriculture Universities. The training programme covered the various aspects of IPRs, IP valuation and technology management *viz.*, entrepreneurship and grass root innovations, technology management strategies, risk assessment, business planning etc., including current practices of innovation management in ICAR system. The training also dealt with the other aspects of Intellectual Property like copyright issues in academic research, IP informatics, valuation of Intellectual Property, potentials of Geographical Indications, etc.

Dr. Ch. Srinivasa Rao, Director, ICAR- NAARM while addressing in the valedictory function highlighted on the importance of innovations and technology management in research organizations and impressed upon the participants to disseminate and implement the learnings from this training. Dr. Umesh Hudedamani, coordinated the programme.
