

MDP Concluded at ICAR-NAARM

14-6-2024

Ten days training on Management Development Programme (MDP) on Leadership Development [a pre- Research Management Positions (RMP) Programme] was organized during June 03-14, 2024 by ICAR-National Academy of Agricultural Research Management, Hyderabad. The MDP was mainly conducted for Heads of the Divisions and other senior officers, who are in the pre-RMP positions. These middle management professionals in the system act as important link between the researchers and RMPs. The programme was attended by 24 participants from seven different states of ICAR Institutes including three women Scientists.

The programme aimed to help participants understand the job roles as a research manager, tackle leadership challenges, and learn important skills like managing research, technology, information, and finances. It also focused on how to prepare themselves for the transition from individual academicians/ researchers to research managers improving their abilities to handle these different job roles effectively.

The Valedictory function, graced by Dr. Ch. Srinivasa Rao, Director, ICAR-NAARM, witnessed feedback by the participants with their suggestions and reflections. Dr. Rao in his Valedictory address shared his insights and opined that the entire ICAR system is looking forward these participants with great expectations to build their respective institutions with positive mindset and empathy to face the complex and daunting challenges of the future.

Dr. Ramasubramanian V and Dr. Ranjit Kumar coordinated the programme.
