

# Massive Open Online Course (MOOC) on

# Digital Assessment and Evaluation Methodologies

(September 1- 30, 2024)

## About the Course

Assessments play a crucial role in assessing learners' understanding. Given the rise of online education, educators must develop and implement diverse online assessment methods to evaluate student performance effectively. Considering this important systemic requirement, ICAR-National Academy of Agricultural Research Management, Hyderabad, designed a **MOOC on Digital Assessment and Evaluation Methodologies (DAEM)**, to be offered during September 1-30, 2024 for the benefit of teachers and aspiring teachers/faculty (with a minimum of completed Graduation in any subject).

This course integrates fundamental evaluation principles with a wide array of digital assessment tools. It encompasses topics such as Principles of Assessment and Evaluation (A & E) methods, methods for setting assessment papers, assessment types and feedback, the basics of rubrics in education, e-assessment, tools for synchronous and asynchronous assessment, and the declaration of online results. Upon completing the course, learners will gain a comprehensive understanding of digital assessment techniques.

## Registration

Register online ONLY using the following link

<https://forms.gle/HnRhy1Gii2jtHZKu6>

We will confirm your participation after verification through email. This completes your course registration process and you can access the course from September 1, 2024.

**Those who got certified in previous run of MOOCs on DAEM during September 2022 need NOT register for this course.**

## Course Format

Participants are required to access content modules that are periodically released over 4 weeks. These modules primarily consist of video lectures lasting 10–15 minutes, supplemented by additional resource materials. Most lectures include discussions or assignments that participants must complete within specified time limits. It may require 40 hours to complete the course over a period of 30 days.

## Certification Criteria

To be eligible for certification, participants must secure a minimum qualifying score of 40 for participation and 50 for completion. These scores are determined based on their level of engagement with all modules, active participation in assignments, exercises, discussion forums, and online evaluations. Every participant must access the lessons regularly and complete the activities within time.

## Fee Details

The course is FREE to access and there is no programme fee for registration and participation in the course. However, ONLY those successful participants whose list will be declared after processing all the criteria and are desirous of having a certification can download their certificate on payment of Rs 2360/- (including GST).

## Important Dates

Registration: August 1- 31, 2024

Course duration: September 1- 30, 2024

Results of successful participants: October 31, 2024
